A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 31, 2009 has been entered.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3, 4, 6-8, 10, 42, and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 3, 4, 6-8, 10, 42, and 43 are indefinite as to "substantially devoid of the endosperm fraction" as it is not clear what is encompassed by this phrase.

Claims 1, 3, 4, 6-8, 10, 42, and 43 are indefinite as to the use of "hydrolyation." It is not clear whether Applicant intends hydrolyzation.

Claims 42 and 43 are indefinite as to the use of "preferably" with respect to the pH and enzyme activity, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired.
